

BUSINESS FOUNDER

Founded and directed by Andreas Vasiliou, Computer Supportworks is a team of specialists who provide custom services in AutoCAD and in a range of vertical CAD applications.

Computer Supportworks combines years of trade certifications and knowledge with the dedication to provide its clients with every facet of software, training, customisation and future support they require.

This form of dedication can only be achieved by constant client interaction to find out what services are needed as workflow develops. Our services are constantly being expanded.

COMPUTER SUPPORTWORKS

Computer Supportworks

Specialising in a range of CAD software, Computer Supportworks is your premium service provider for AutoCAD and in a range of vertical CAD applications.

We provide quality professional support, training, software sales, customisation and staff selection services for a number of individuals and organisations. Based in South Australia we currently provide support and customisation locally and at a national level directly to our clients and through our network of affiliated resellers.

Our philosophy is to continually add products and services to our business that reflect the need of our clients.

softWORKS

Software Sales Services

SoftWorks is a software sales service for your convenience. We endeavour to take the headache out of ordering and picking up software.

Call us and let us do all the hard work for you. **Autodesk Value Added Reseller**

selectTRAIN

A Modular & Flexible CAD Training System

SelectTrain offers structured and non-structured flexible CAD training so that you and your staff are up to speed with CAD in the quickest possible time.

Training starts at your convenience with the timetable tailored to suit you.

customWORKS

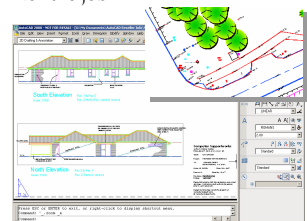

CAD Automation & Programming

CustomWorks provides customer focused solutions for a variety of CAD software, ranging from the simplest of macros to very complex routines and wizards.

cadFORCE

Staff Selection Services

CADForce offers staff selection services that provide the best CAD candidates to you. Let us help you select that special person for the job.
